CUSTOM SINK LEG SOLUTIONS

Winter 2017-2018

**Palmer Industries** is an American manufacturer of solid brass vanity sink legs, and other architectural metalwork. We are a custom supplier, with each stand built and packaged one at a time to your custom specifications...any style, any size, any configuration, and any finish.

*The Metro*

*The Providence*

Our company was founded forty years ago as a custom, artisan-style shop, offering a very high degree of customer service and design flexibility...and we still operate on that basis today, building each console individually to your preference. Our business model is structured to produce a meticulously crafted and personalized product assembled in America, accompanied by extraordinary response and follow through by our experienced team.

## Palmer Designs.... Palmer Possibilities...

As individual details are layered within your bathroom space, the Palmer console will integrate perfectly with your unique choices of personal colors, wall, floor and counter materials, and plumbing fixtures.

Palmer consoles will support any choice of counter material, such as granite, marble, quartz, porcelain, cement, Corian, glass, metal, or wood. You provide the counter, and Palmer will design the appropriate washstand exactly to specification: the perfect marriage.

Engineered in solid brass and richly finished in a full palette of lustrous platings and hand-rubbed patinas, Palmer Industries brings you the finest in custom vanity sink legs, perfectly at home in your elegant master bedroom suite or your understated powder room.

Provide us with your simple sketch, magazine clipping, or a concept image from Houzz or Pinterest, and Palmer will quickly propose a solution to accommodate your design intent.

## Flexible Design... Rigid Assembly...

Palmer offers unlimited design flexibility to create exactly the style and configuration of console you prefer, while never compromising the engineering details that ultimately produce a sound and rigid assembly.

Our internal "unseen" components are just as impressive in their function as our external decorative fittings are in their form.

Components such as custom-designed reinforcing plugs and nuts, tubing connectors, and heavy-duty machine fasteners (never "sheet-metal" screws), all chosen in appropriate metals such as stainless steel and tempered aluminum, are carefully integrated to produce a seamless and lasting console.

# Shelving Options & Shelf Supports... Style & Utility

Palmer Industries offers the perfect solution for incorporating additional storage within your washstand. Our European-style Hotel Towel Rack, solid Teak Wood Shelf, and 1/2"-thick Glass Shelves all are handcrafted in the USA, and are custom fabricated one at a time to your unique specifications.

## Shelf Supports:

All shelves require the use of a shelf support system.

Palmer Industries has engineered four unique shelf support systems to meet your needs.
